

# PREVENT

# INFLUENZA A (H1N1)

If you have recently returned from an **Influenza A(H1N1)** affected country\* and develop the following symptoms:

**Fever**

and any one of these:

**Cough**

**Difficulty in breathing**

**Sore throat**

**Headache**

**Body ache**

Seek **IMMEDIATE** treatment from a doctor.

Inform the doctor that you have returned from an Influenza A(H1N1) affected country.

\*For current update of Influenza A(H1N1) affected countries/areas please refer to [www.moh.gov.my](http://www.moh.gov.my) or [www.who.int/](http://www.who.int/)
